City Releases Proposed 2019 Budget

Final budget to be set following budget deliberations on November 7 & 8

Administration for The City of Prince Albert has released the proposed 2019 Municipal General Fund Budget. The budget document, which is available online at <http://citypa.ca/City-Hall/Budget-Information/General-Fund> includes both summarized as well as detailed information about the factors that are driving changes in the budget values.

“Despite serious budget considerations to deal with we worked in close cooperation with the departments to come up with solutions that allowed us to present a budget that sustains current service levels, maintains infrastructure and meets obligations to external stakeholders,” said Cheryl Tkachuk, Director of Financial Services for the City of Prince Albert.

The budget documents this year have been prepared in a format very similar to previous years. Information is broken down into functional areas rather than only by department and with more detail so there is a clearer sense of what is driving budget changes in each area.

During budget committee deliberations members of Council will review each functional area of the proposed general budget which includes both the operating and capital budget. The final 2019 budget will be set following decisions of the Budget Committee.

External agencies and the public are invited to review the budget documents and provide feedback during public consultations. The proposed 2019 budget is available at <http://citypa.ca/City-Hall/Budget-Information/General-Fund> and a summary version is available at the Financial Services Department at City Hall. Those wishing to provide feedback are asked to advise the City Clerk in advance of public consultations.

Public Consultations:

Monday, November 5, 2018 – beginning at 6:00pm

General Fund Budget Deliberations:

There will be no presentations from the public during these meetings, but they are open to the public to observe.
